

Exhibiting Opportunities 2017

*ILLUMINATING BUSINESS OPPORTUNITIES
FOR THE OIL AND GAS INDUSTRY SUPPLY CHAIN*

OIL&GAS^{UK}

About Share Fair

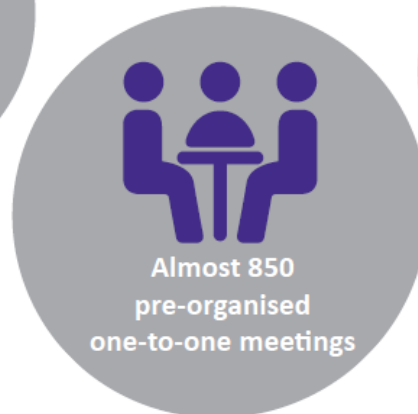

Share Fair is the largest and most eagerly anticipated event in the Oil & Gas UK event portfolio, attracting attendees from across the UK oil and gas industry supply chain. This well-established one-day event provides a unique opportunity for the supply chain to hear about business opportunities available to them and importantly allows them to raise their profile and offering to the wider oil and gas industry.

Historically, this event has focused on the forward work-plans of operators and tier one contractors. In 2015 and 2016, presenting companies were also encouraged to classify and share efficiency challenges facing their business. This allowed attending delegates to identify and raise awareness of any potential solutions or mechanisms that could help unlock the full potential of the UKCS. Once again, presenters are actively being encouraged to use the event to highlight these opportunities to the supply chain in 2017.

The continued low oil price and challenging market conditions offer an opportunity for the event to evolve and provide a more effective mechanism for companies to meet and generate business activity.
